Hangzhou, Zhejiang, P.R. China

Research Interests

- **Mesoscopic Transport:** Applications of the ***Nonequilibrium Green Function*** theory to two-dimensional materials.
- **Open Quantum System**: Applying Memory Kernel Coupling Theory (MKCT) to calculate correlation function.

Education

Westlake University, Physics Department — Zhejiang, China

Ph.D. in Science — 09/2025 – 06/2030

- **Supervised by** Wenjie Dou (*Laboratory of Theoretical and Computational Chemistry*)
- **Thesis:** *(Expecting)*
- **Awards:** *(Expecting)* — (Expecting)

Hangzhou Dianzi University, Opto-Electronics Information Science and Engineering — Zhejiang, China

Bachelor of Engineering — 09/2021 – 06/2025

- **Thesis:** *Research & Applications of Micromagnetics Based on LLG Equation* — (Excellent Thesis Exhibition Award)
- **Awards:** The first, second and third prize scholarships once. GPA: 3.83

Research Experience

Undergraduate Research Summer Camp at CUHK(SZ) — 07/2024 – 08/2024

- School of Science and Engineering, Physics Programme — Academic Exploration Award
- Topic: *Research on the Transitions of Magnetic Skyrmion Tube, Toron and Chiral Bobber Controlled by PMA and External Field in Chiral Magnets*

Honors & Awards

Zhou Peiyuan Mechanics Competition for College Students — 08/2023, 07/2025

- The National Third Prize — Chinese Society of Theoretical and Applied Mechanics

Mathematics Competition of Chinese — 01/2023

- The National Second Prize — Chinese Mathematical Society

Undergraduates Physics Experiment and Department Technological Innovation Competition — 09/2023

- The Provincial Third Prize — Zhejiang Physical Society

Skills

- **IT Skills**: MATLAB, Python, LaTeX, Origin
- **Languages:** Proficient English (IELTS: 6.0) · Semi-skilled Cantonese · Native Chinese
